

Certificate of Completion Blended Intensive Programme

We hereby confirm that Christina Kimario from Ardhi University has participated in the BIP: Summer School: Lowering barriers for minority groups in retail (BIP ID: 2024-1-BE02-KA131-HED-000217793-5) (BIP ID:) organised by Thomas More University of Applied Sciences, Electronics-ICT @ Campus Geel.

The physical component of the BIP took place from 01/09/2025 until 05/09/2025.

The virtual component of the BIP took place from until .

The virtual component is described as follows: During the virtual learning period, mixed international student teams of 5–6 members will be formed, with around eight teams expected in total. Throughout this phase, students will be provided with a variety of information to prepare them for the summer school experience. This includes an introduction to Belgium and Thomas More University of Applied Sciences, insights into the summer school's ambitions, and an overview of the adopted teaching methodologies, namely the Design Thinking approach and Tuckman's model of team development. Students will also be introduced to the central challenge, "Lowering barriers for low-literate adults in retail", as well as the target group, the overall planning and the evaluation criteria. In addition, time will be spent on team building, initial team assignments prior to the physical week and a range of practicalities related to arrival and participation. The main aim of this first session is to provide essential information, create shared understanding and set the scene for collaboration and innovation. To ensure reflection and continuity, a second virtual session will be organized at the end of the programme to gather feedback, exchange experiences and formally close the summer school.

The student has obtained the following score: 13/20

The student has obtained 3 ECTS by participating.
